

SCM Series

SMD Common Mode Inductor

Size 5020

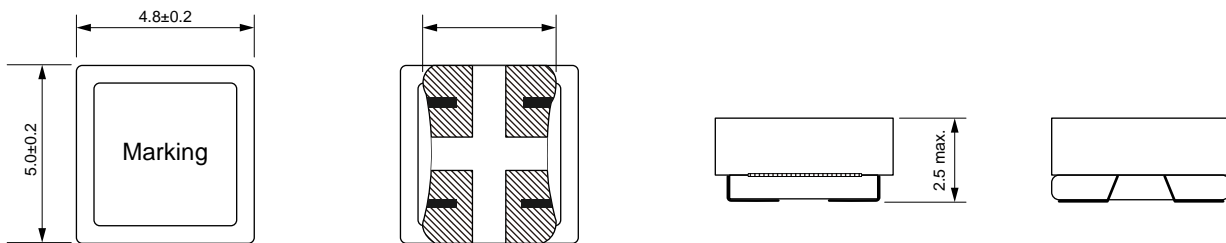

FEATURES

- Chip common mode filter for large current applications.
- Optimal for surface mounting with low profile 2.5 mm.
- Operating temperature -40~+125 °C
Quantity:2500pcs

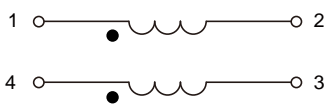

APPLICATIONS

- Countermeasure of Common mode noise in power lines for various devices

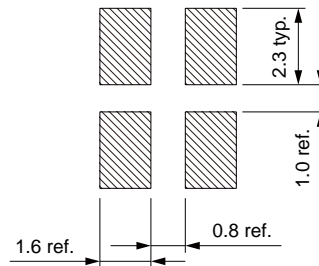

Dimensions: [mm]

Schematic:

Land Pattern: [mm]

Electrical Properties:

	(Ω)	($m\Omega$)			($M\Omega$)

Temperature Rise Current will cause the coil temperature rise approximately $t_{40}^{\circ}\text{C}$

Typical Electrical Characteristics:
